

PLAYING CASINO WAR

Try the Casino version of this fun and easy game. It's very similar to the game you played at home and just as exciting!

Minimums and maximums, and maximum payouts are posted at the table.

Place your wager in the betting area. The Dealer will deal each Player a card. If your card is higher than the Dealer's, you win! Winning pays even money (1 to 1)!

If your card and the Dealer's card match, you are **'At War'**! You now have two options:

Option 1: To continue or go to 'War', place your 'War' wager, which must match your original bet, directly on your dealt card. The original wager is forfeited. The Dealer takes your original wager and will then deal you a second card and themselves a second card. If your card is higher than the Dealer's, you win 2 to 1 on your 'War' wager. If you tie the Dealer while at 'War', you still win, at a rate of 3 to 1 on your 'War' wager!

Option 2: If you don't want to go to 'War', you can surrender and stop your game by not placing a matching 'War' wager on your card. Instead, you will forfeit ½ (half) your original bet and wait until the next round to play again.

TIE BET

In Casino War, Players have the option of a side bet that their card and the Dealer's will tie. The wager is placed in the tie bet area on the table prior to Players receiving cards. If you bet the tie wager and you and the Dealer tie, in rank only, you win 10 to 1! Minimum tie wager is \$1 to a maximum of 10% of the table maximum.
