

PLAYING SLOTS

CURRENCY

Our slot machines operate with Canadian currency. U.S. currency can be easily exchanged by our friendly slot staff, ticket redemption kiosks, or cage cashier.

TICKET IN/TICKET OUT

Niagara Casinos' slot machines operate on a Ticket in/Ticket out system. A ticket is issued for any unplayed credits and can be redeemed at any Niagara Casinos' Ticket Redemption Kiosk or Cashiering area.

WHAT IS A RESIDUAL TICKET?

If you place a slot ticket into a "Bill/Ticket Acceptor" and immediately a ticket is presented to you at the "Collect Ticket" location on the game, you have just received a "Residual Ticket". A "Residual Ticket" is printed when you move from one denomination to another and the current game is not capable of accepting the full amount on your ticket.

Example: You play a \$0.25 game and cashed out a slot ticket totaling \$32.50. If you insert the ticket into a \$1.00 denomination game, the game will immediately print out a "Residual Ticket" for \$0.50 and will apply \$32.00 as credits for you to play. The "Residual Ticket" can be inserted into a \$0.01 - \$0.50 game or cashed out in one of our Ticket Redemption machines.

Remember: A ticket that is not accepted by the game for any reason will always be returned to you at the "Bill/Ticket Acceptor" where it was originally placed. A "Residual Ticket" will always print at the "Collect Ticket" location on the game.

SLOT MACHINES

With over 4,300 slots and video poker machines at Fallsview Casino Resort and Casino Niagara, in denominations ranging from 1¢ to \$100, we've got countless ways to win for every level of player. Try your luck on reel, video reel and video poker machines, or take a shot on the progressives – the action is non-stop!

HOW SLOT MACHINES PAY OUT

There are three basic pay tables. Understanding these pay tables is key to ensuring you receive the maximum awards and jackpots!

Multiplier – All combinations on the pay table pay out multiplied by the number of coins/tokens played. If a combination worth 100 tokens comes up and you have played only a single token, you would win 100 tokens, if you played three tokens, multiply 100×3 for a 300 token win. These machines are offered with multipliers of up to five.

Buy A Pay – Buy a Pay machines have separate pay tables. If you play one coin, the machine will pay out only on combinations listed in the column titled 1st Coin. If you play two coins, the machine will pay out only on the combinations on the 1st and 2nd pay table, and so on.

Buy A Line – Many slots have only one pay line. The pay line is always indicated on the face of the reel window. A Buy a Line slot machine has more than one pay line; in fact, it can have five or more. The number of tokens played determines the number of pay lines you are playing. Playing the maximum bet ensures you win on any winning combination spun on any pay line.

PROGRESSIVE SLOT MACHINES

A progressive slot machine can either be a bank of slot machines electronically connected or a stand alone machine. As the machines are played, a portion of every bet is attributed to the jackpot, helping it build. Jackpots come in all denominations and vary based on the amount of play and the number of machines played.

VIDEO SLOT & POKER MACHINES

We offer video slot and poker machines, including such favourites as, Video Keno, Deuces Wild, and more. Video Slot Machines can feature multiple themes and use touch screen technology. Underneath the screen are all of the function buttons. Pressing the menu button will display a list of all the games available. Simply touch the screen to select the game you wish to play. Once you have selected a game, you can obtain a list of payouts by pushing the 'See Pays' button again.

Many slot machines also feature a help button that can be accessed at anytime. The help screens will assist you in understanding the game and its rules.

KNOW YOUR WAY AROUND A SLOT MACHINE

Momentum Card Readers Insert your Momentum card into the reader to receive credit for your entire slot play (the reader must say "accepted").

Bill Validator – Insert tickets or bills as indicated on the validator and the machine will issue the appropriate number of credits for the denomination inserted. Most slot machines take Canadian bills up to \$100.

Cash/Credit Button – Use this button to cash out any credits on the machine. This includes credits from any winnings or from inserting a bill or ticket into the validator.

Bet One Button – This button can be used when you have credits showing on the slot machine. Push it once to bet one credit, twice to bet two credits, and so on.

Bet Max – Use this button when you have credits showing and want to automatically bet the maximum bet on the slot machine.

Spin Button/Handle Use either of these to initiate the game.

Change If you require change or assistance from a slot attendant, push this button. It will light the candle on the top of the slot machine, indicating to a slot attendant that assistance is required.
